ziyadmuhammad200@gmail.com | https://www.linkedin.com/in/ziyadmuhammadzs

Bachelor's degree in Informatics from the Islamic University of Indonesia with experience in academic projects involving data analysis, data cleaning, data transformation, and user needs analysis. Familiar with SQL, Microsoft Excel, Python, data visualization, and dashboard development through academic projects and data analytics training. Interested in pursuing a career as a Data Analyst by applying analytical and problem-solving skills to transform data into meaningful insights and support data-driven decision-making. Able to work effectively in teams, communicate well, and quickly learn new technologies.

EDUCATION

Bachelor of Informatics, Islamic University of Indonesia (UII) **Sep 2021 - Oct 2025**

- GPA: 3.44
- Relevant Courses: Data Structures and Algorithms, Software Engineering, Information Technology Development Management, Information Systems, Data Science, Web Programming
- Thesis Title: "*UI/UX Design of Petshop Marketplace Application using the Design Thinking Method*"

PROJECTS EXPERIENCE

App Design Development - Design Thinking Course **Sep 2021 - Jan 2022**

- Define the app's color palette based on UI/UX principles
- Develop application UI/UX design with a focus on usability, user flow, and user experience.
- Produce application designs that are ready for further development

Java-Based Desktop Application Development - App Dev Fundamentals **Mar 2022 - Aug 2022**

- Develop desktop application views with Java and XML (Scene Builder)
- Implement CRUD features for data management
- Generate simple desktop apps

Web-Based Application Development - Web-Based App Dev Course **Sep 2022 - Des 2022**

- Help define application concepts in development projects
- Develop web application features on the front-end and back-end side collaboratively
- Produce simple web-based applications

System Development Planning - Information Technology Dev Management **Sep 2022 - Des 2022**

- Lead teams in information systems development planning projects
- Define system solution concepts based on project needs and objectives
- Creating an initial design of the system as a basis for documentation and development

Data Processing - Fundamental Data Science Course **May 2023 - Jul 2023**

- Analyzing the data of the Consumer Price Index for the transportation sector using clustering techniques
- Perform data cleaning, transformation, and normalization to improve the quality of analysis
- Groups cities into low, average, and high categories based on clustering results

TRAINING & CERTIFICATION

Intro to Software Engineering - RevoU **May 2026**

- Learn the fundamentals of software engineering, programming concepts, and software development cycles.

Intro to Data Analytics - RevoU **May 2026**

- Learn the basics of data analytics, data analytics for businesses, and the application of data in problem solving.

Microsoft Excel Expert Bootcamp - KarirNex **Jun 2026**

- Learn advanced Microsoft Excel, including formulas and functions, VLOOKUP, INDEX MATCH, Pivot Table, Data Validation, interactive dashboards, and basic VBA Macro through mini projects.

Data Analyst Bootcamp - KarirNex **Jul 2026**

- Learn data analysis using Microsoft Excel, SQL (Google BigQuery), Python (Google Colab), and Google Looker Studio, including data cleansing, data visualization, and creation of interactive dashboards.

SKILLS

Languages: Indonesian (active), English (Upper Intermediate – CILACS 540)
Technical Skills: Data Analysis, Exploratory Data Analysis (EDA), Data Cleaning, Data Transformation, Data Visualization, Dashboard Development, SQL (MySQL, Google BigQuery), Microsoft Excel (VLOOKUP, INDEX MATCH, Pivot Table, Data Validation), Python, Looker Studio, Data Normalization, Clustering, Database Management (MySQL), Tableau (basic)
Programming & Web: Java, HTML, CSS, Bootstrap, Tailwind
Design & Other Tools: Figma, Canva, VS Code
Interpersonal Skills: Communication, Teamwork, Discipline, Adaptability, Detail-oriented
